Synopsis

The International Workshop on Technological Advances in Energy, Environmental Engineering and Materials Sciences (AETEEMS 2017) will be held in Mohammedia, Morocco, on 10th and 11th July 2017. AETEEMS 2017 provides a platform for scientists, student researchers and academic researchers to exchange and share their experiences and research results in materials sciences, new technologies in the field of energy, Environmental engineering and related fields. The strategic nature of the issues addressed at this conference will provide scientific and socio-economic benefits for the industrial field and the development of intangible goods. This cognitive capital is one of the most recent indicators used at the international level to measure the development of states.

Topics

- I. Materials Science and Engineering
- II. Materials Processing
- III. Environmental Engineering
- IV. Energy and Power Engineering

Plenary speakers

Prof. Bouchta SAHRAOUI, (University d'Angers, France)
Prof. M'hamed. BOUTAOUS (INSA-Lyon, France)
