Presentation & Invitation

The first three editions of the International Symposium on Medicinal and Aromatic Plants (SIPAM), were organized respectively in Rabat, 2002, Marrakech 2004 and Oujda 2008. The fourth edition will be organized in the Faculty of Sciences and Technology of Mohammedia in May 12th & 13th, 2011.

This event is jointly organized by the National Pole of Competences of the Aromatic and Medicinal Plants (RéPAM) and Arab Federation of MAP in partnership with the Laboratory of Bioorganic and Analytical Chemistry (LCBA) in the Faculty of Sciences and Technology of Mohammedia.

On behalf of RéPAM, Arab Federation of MAP, Hassan II University Mohammedia-Casablanca and Faculty of Sciences and Technology of Mohammedia, we invite you to come and participate to this scientific event.

Objectives

The SIPAM4 aims to expand knowledge, promote and develop the Aromatic and Medicinal Plants in Morocco at the national and international level.

This, the chief objective is to stimulate and encourage meetings between experts of the scientific community, economic actors and practitioners working in the field of MAP.

Moreover, through the selected topics the SIPAM4 aims to promote the role of the MAP in sustainable development at the regional, national, and international level.

The program of SIPAM4 will include scientific papers and round tables covering the various themes related to MAP.

Topics

- Biodiversity, ethnobotany and ethnopharmacology.
- Production, cultivation, domestication and conservation.
- Phytochemistry, Extraction, separation, purification and characterization, synthesis and semisynthesis.
