MSPN 2019 is the 5th edition of the successful International Conference on Mobile, Secure and Programmable Networking. It aims to provide a forum for scientists, engineers and researchers to discuss and exchange novel ideas, results, experiences and work-in-process on all aspects of computer and information technology. Each year, MSPN attendees appreciate and benefit from multidisciplinary exchanges on Mobile, Secure and Programmable Networking.

Authors are invited to submit complete unpublished papers, which are not under review in any other conference or journal, to <https://easychair.org/conferences/?conf=mssp2019> (pending).

The accepted papers will be published as a post-proceedings in Springer's LNCS (pending). Lecture Notes in Computer Science (LNCS) series is indexed by the ISI Conference Proceedings Citation Index - Science (CPCI-S), included in ISI Web of Science, EI Engineering Index (Compendex and Inspec databases), ACM Digital Library, dblp, Google Scholar, Scopus, etc.

Selected papers will be further considered for possible publication in a [Special Issue of the Computers journal, indexes in scopus.](#)

More information about the topics of the conference can be found in the presentation of the different tracks:
